

## MORE HIKES TO THE WHITE HOUSE

Aldrich and Cannon Go There to Consult President, Taking Tariff Bill With Them.

### CHAIRMAN PAYNE NOT THERE

Seems to Have Realized That He Is in The Minority in Conference Committee.

Washington, July 20.—The tariff bill was today transferred bodily from the Capitol to the White House. Deadlocked because of the attitude of Representative Payne, who apparently has become convinced that he is in the minority, the conferees abandoned the usual afternoon session. Senator Aldrich and Speaker Cannon repaired to the White House to consult with President Taft, literally taking the tariff bill with them.

What happened between the president and the senate and house leaders is a sealed book. When Senator Aldrich and Speaker Cannon returned to the Capitol, they minimized the differences that had aroused bitterness in the conference room and insisted that nothing unusual had occurred. Senator Aldrich said that tomorrow would find the conference committee again at work, and he expected that by night, when all of the conferees were to be entertained by the president at dinner, most of the problems would have been solved.

Nevertheless, there has been trouble. Some say that the differences between Senator Aldrich and Mr. Payne have taken such form that progress is impossible unless the president has influence enough to compel action. It is not denied that there was a clash yesterday between Representative Payne and Representative Fordney of Michigan.

From a credible source, it was learned that a crisis was reached when an effort was made late yesterday to vote on lumber. Mr. Payne protested and argued that such a move would be unfair to the president, as this was one of the subjects practically submitted to him for adjustment, provided he could get votes enough in the two houses to adopt compromise rates.

"If we cannot agree, let's settle the question by voting," Mr. Fordney is reported to have suggested. It is said Mr. Aldrich acquiesced.

That Mr. Payne had little part in selecting the conferees to represent the house is well known. Mr. Payne made recommendations that were ignored, and the speaker made his own selections. Mr. Payne is said to have complained that the conference committee had been "packed" with high protectionists.

When Mr. Fordney said, "Let's vote," Mr. Payne protested with a vehemence that startled his associates. Some one said that the majority should rule. That remark, it is declared, came from one of the senate members of the conference and it incensed Mr. Payne still more.

Mr. Payne told Mr. Aldrich that he could vote the senate members of the conference if he chose, but that he could not vote the house members so easily full of wrath, he told his house colleagues that it was their duty to stand up for the house bill.

Mr. Payne is reported to have said that he would not sign a conference report merely because a majority of the house Republican conferees had agreed to it. Then he stalked angrily from the room.

The 25 Republicans of the house who called upon President Taft recently to plead with him to recede from his position in favor of raw materials, were considerably alarmed when they learned of Chairman Payne's action.

The possible attitude of the house Democrats interested them greatly. It was said that if President Taft and Representative Payne were successful in obtaining a conference report carrying out the free raw material program, a large number of the minority would be found supplanting the 24 Republicans if they decide against the conference report.

A conference of the progressive Republican senators was held immediately after the senate adjourned. The insurgents' meeting lasted nearly two hours. There was manifest a disposition to criticize President Taft for not having issued his statement earlier. Senator Dolliver said:

"The Republicans who were unable to vote for the pending tariff bill when it passed the senate have been greatly pleased and encouraged by the efforts of the president to change the character of the measure. It is our earnest hope that he will be successful in securing real revision."

Democratic senators said today that Senator McEnery will be the only member of the senate who will vote for the adoption of the conference report.

### Anty Drudge's Recipe for Removing Stains

**Anty Drudge**—"Well, well! What's the matter, little girl?"

**Mrs. Youngwife**—"Charley's covered the table-cloth with fruit and coffee stains, and it's my very best cloth, and because I spoke of it at breakfast, he slammed the door when he went to work, and he—he—he didn't kiss me good-bye."

**Anty Drudge**—"Never mind, dearie, don't cry. Get a cake of Fels-Naptha soap. It'll take every stain away with a little cold or lukewarm water."

It isn't the wearing, but the washing that sends light clothes to the rag-bag before their time. The way to stop that is to wash them with Fels-Naptha soap in cold or lukewarm water. No boiling to weaken their fabric; no hard-rubbing to wear and tear them. And Fels-Naptha won't harm the most delicate lawns or laces.

Say you have a lot of white shirtwaists and things to wash. Just wet them, soap with Fels-Naptha, roll and soak for a few minutes in cold or lukewarm water. Then rub lightly, rinse and hang on the line. Easy, isn't it? And the clothes will be cleaner and whiter and sweeter than you can get them any other way.

Follow directions on the red and green wrapper for using Fels-Naptha.

Fels-Naptha does all kinds of housecleaning quicker and better than anything else.

## Partial Paralysis

May Be Entirely of a Functional Character.

It Is Not Necessary to Accept It as Hopeless Since There Are Many Well Authenticated Cures.

There is absolutely no way of reaching the nerves with medicine except through the blood. The nerves receive all of their nourishment and support from the blood which, under healthful conditions, carries the elements needed to rebuild wasted nerve tissue.

Let the blood become deranged and deficient in these elements and the nerves will be badly nourished and headach, neuralgia, sciatica, functional paralysis and a host of other nervous troubles result.

In severe nervous disorders Dr. Williams' Pink Pills have accomplished many seemingly impossible cures. Such an instance was the case of Mrs. Elizabeth Stratton of no. 1128 Dewey Ave. Beloit, Wis. Mrs. Stratton has lived at her present address for the past six years and there is no room for doubt regarding her statement she says, "I had been ailing for some time, through overwork and worry, when my right side suddenly became partially paralyzed. I could not move for some weeks without taking hold of a chair. My right leg and arm were affected so that I could not use them. My nerves were in a terrible state. I shook all over and was excited by the least little thing. For weeks I could not sleep. My appetite was poor and I was a nervous wreck."

"Doctored with local physicians at Quincy, Ill., who said I had partial paralysis caused by a nervous shock. I did get a little relief from them but it was only temporary. Through a friend I was induced to try Dr. Williams' Pink Pills. This was after I had been sick for over a year. I was then up and around, but could not walk. The pills soon helped me and finally completely cured me. My daughter also used the pills for a run-down condition of the blood and they helped her at once."

While so promptly effective, Dr. Williams' Pink Pills contain no harmful stimulants or opiates. They are perfectly safe and create no drug habit. Our booklet, "Nervous Disorders," will be mailed free on request to any address. Send for a copy today.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50. by the Dr. Williams medicine Company, Schenectady, N. Y.

## MORE TROUBLE FOR POLICE CAPT. KUHN

New York, July 21.—More trouble is in store for Acting Police Capt. August Kuhn, when he is released tomorrow from the Raymond street jail. Brooklyn, where he has been serving a 30-day term for contempt of court in retaining certain pictures in the police's gallery. Since Capt. Kuhn has been in jail, a new police administration has come into power, and it is reported that instead of going back to his old work as head of Brooklyn detective bureau, he will be assigned to an outlying district, and that further he will be placed on trial for being absent from duty without permission. He was granted only 20 days leave of absence as the law does not permit a longer leave, and it was expected that a second leave of absence for 10 days would be granted him. But the new administration took no such action, and now it is said that Kuhn must stand trial for being absent during the last 10 days of his jail sentence.

Manila, July 21.—The five highest ranking officers in the constabulary, who have been designated to investigate the mutiny of a company of native constabulary at Davao, Mindanao, on July 5, have assembled here and will go to Davao immediately. The five officers will form a court of inquiry to ascertain the causes that led up to the mutiny.

Junior officers and assert that when they returned to Davao after their first flight, they wanted to confer with their captain, and had no intention of making an attack. Upon returning to town, however, they claim that an outpost of the soldiers fired on them, and they replied.

The conduct of Lieut. Allen Walker, governor of Davao province, and Lieut. Deblaine in leaving Davao after the mutineers had attacked their officers, is questioned. The present inquiry, however, will only cover Deblaine's action, as Gov. Walker is not under the jurisdiction of the constabulary.

A sharp discussion is being waged in military circles here over Walker's action. His friends point out that Gov. Walker got back to Davao with reinforcements before the second attack of the mutineers, and helped to save the town.
